## **Loving You**

## **Negative**

You are the one who makes me feel Like my life have a meaning It's hard to tell you that I care And all I want is that you kiss me

One more time before I die I know it's early But tomorrow I fear it's too late

Oh please don't say that it's not OK ' cause it's not fair for me, loving you

So I live only for you I hope someday you feel the same way too This life is hurting We both know that Still all I want is....
