

Motherfucker (Just Like You)

Negative

Since birth you wandered on the streets
Doing drugs to kill bad self-esteem
Never looking out for compromise
Now you're gone in hell and I realize.. that I've
seen...

Motherfuckers, motherfuckers, just like you
Who don't know, who don't know, what they should do
with their lives
Motherfuckers, motherfuckers just like you

Take a look outside it all could be yours
Unsophisticated demanding force
Am I wrong, I warned you for so long?
Always waiting for the next storm to come... that I've
seen

Motherfuckers, motherfuckers just like you
Who don't know, who don't know, what they should do
with their lives
Motherfuckers, motherfuckers just like you
Who don't know, who don't know, what they should do

Just get a life man
Just get a life man, just get a life man

Just get a life man, you better do it fast
Just get a life man
Now get out of your trap

Just get a life man, you better do it fast
Just get a life man
Now get out of your trap

And I've seen

Motherfuckers, motherfuckers just like you
Who don't know, who don't know, what they should do
with their lives
Motherfuckers, motherfuckers just like you
Who don't know, who don't know, what they should do
with their lives

Just get a life man, you better do it fast, just get a
life man
