

# Planet Of The Sun

**Negative**

On and on I was looking for freedom  
Less and more I found it by you  
This darkened sky of our heavenly kingdom  
The thing in common is there's not so much left to say

R: Are you ready or not  
Ready for the Ami  
truth  
Sick and tired of this nonsense  
I'm frustrated by you

The sounds of silence are getting louder  
Breaking the bond we protected so long  
I don't see reason  
To ponder with this any longer  
There's no turning back  
Just one way to fall  
Fall apart

R:

In a life that we live in  
For the love we believed in  
This might be the day we die  
So we can be born again

And life should be easy  
When there's someone to hold on  
That's what they told me  
That's what I thought

R:

In a life that we live in  
For the love we believed in  
This might be the day we die  
So we can be born again

On and on still looking for freedom  
Ami, Planet Of The Sun
