

Only sorrow and pain will fill your heart tonight  
Only thing that will remain

Could it get worse? It's a one way street down  
With every gasp it hurts never pleasant kinda way  
This love was a curse and we were just framed  
It all comes back crying out your name

Only sorrow and pain will fill your heart tonight  
Only thing that will remain is your heart next to mine  
Sorrow and pain.... Only sorrow and pain

There was a time when you walked in beauty  
Now you're alone but there are millions just like you  
Why should you fight, no one's safe from the cruelty  
The worst part is yet to come...

Only sorrow and pain will fill your heart tonight  
Only thing that will remain is your heart next to mine  
Sorrow and pain... Only sorrow and pain

Only sorrow and pain will fill your heart tonight  
Only thing that will remain is your heart next to mine  
Sorrow and pain... Only sorrow and pain
