

# Until You Are Mine

Negative

Afraid of  
All the fears i feel inside  
Hard to come out  
And try to leave this world behind

Should i be afraid of  
When all the beauty seems so cruel  
Always somehow  
I turn all my fears on you

Sometimes i'm running out my fears  
I throw them high until you're mine  
You give me heart to carry on  
It gives me hope it makes me strong

Afraid of  
All your fears are bleeding through  
Deep inside my  
My heart i will kiss you

Until you're mine  
This waking hour's killing me  
Always somehow  
You finally turn your fears on me

On meee... retrace meeee...

Sometimes i'm running out my fears  
I throw them high until you're mine  
You give me heart to carry on  
It gives me hope it makes me strong

Wooow...

Sometimes i'm running out my fears (running out my fears)  
I throw them high until you're mine (until your mine)  
You give me heart to carry on (carry on)  
It gives me hope it makes me strong

Until your mine, until your mine  
Right up high

You give me heart to carry on  
It gives me hope it makes me strong
