

At Night

Neil Diamond

At night
On some dark quiet street
Baby, that's where we meet
When day is through

They say
That our love isn't right
So I wait for each night
To be with you

Till they realize
Our love's not some passing phase
We'll just meet at night and pray there
For better days

I wait
For the darkness to come
Till we can walk in the sun
We'll meet at night

I wait
For the darkness to come
Till we can walk in the sun
We'll meet at night

At night
Come on, come on, now love
You know I'm not your mean man
