Pretty soon we were takin' it serious Me and you underneath a mysterious spell Nothin' I could do and it suddenly felt like a bolt out of hell I'm tellin' you To the sound of the beat I was hanging on Like a powerful truth, it was banging on me Wouldn't let me go Like a shot in the dark she was hot like a spark I only know Neither one of us trying to hold it down Neither one of us taking the middle ground Wasn't how to make sense we were thinkin' of Just the two of us bent on delirious love Me and you being spent on delirious love Like a ride on a rocket it took us up Didn't want it to stop and it shook us up good We were moving fast Just ahead of the law We were beggin' for more And what a blast Comin' round to a new kind of view of it Never did it before we were doin' it now And I gotta say it was easy to give Was a reason to live another day Neither one of us stopping to figure out What the roll and the rockin' was all about All we knew was that we couldn't get enough You and me in the heat of delirious love Makin' time to the beat of delirious love I can feel it I can feel it I can feel it

Come down had a new kind of view of it
Wouldn't do it before we were doin' it now
And I gotta say it was easy to give
Was a reason to live another day
Neither one of us stoppin' to figure out
What the roll and the rockin' was all about
All we knew was that we couldn't get enough
You and me in the heat of delirious love
Makin' time to the beat of delirious love
You and me gettin' sweet on delirious love
