

Gold Don't Rust

Neil Diamond

I know you worry everytime I go away
You wonder will these sweet sweet feelings shine or fade
But that's a question you don't have to ask
What heaven makes, it always makes to last

Gold don't rust, Love don't lie
I'll be true, till the day that I die
Trust in me, you will find
Baby you're the gold in this heart of mine
And that gold will shine for a long long time

I wish that I could give you what you need from me
But what good is a promise or a guarantee
Love is still a simple act of faith
And a faithful is heart is always worth the weight

Gold don't rust, Love don't lie
I'll be true, till the day that I die
Trust in me, you will find
Baby you're the gold in this heart of mine
And that gold will shine for a long long time

Love is still a simple act of faith
And a faithful is heart is always worth the weight

Gold don't rust, Love don't lie
I'll be true, till the day that I die
Trust in me, you will find
Baby you're the gold in this heart of mine
And that gold will shine for a long long time

Baby you're the gold in this heart of mine
And that gold will shine for a long, long long time
