## **Hey Louise**

## **Neil Diamond**

Hey, my Louise, If I take you home, Will you make me plead? My sweet amour If I come to close, will you close the door?

Oh ma cherie, do you know my name? I remember yours And I know what you need What you need my Louise

Hey my Louise, I can stand the heat, But don't let me freeze Merci beaucoup, it's a natural thing When it's me and you

Oh ma cherie, do you know my name? I remember yours And I know what you need What you need my Louise

Oh ma cherie, do you know my name? I remember yours And I know what you need What you need my Louise Need, what you need my Louise What you need my Louise
