

# Knackelflerg

Neil Diamond

Knackelflerg, that little word  
It says what you meant to me  
You've been awf'ully fine

Knackelflerg, I've never heard  
A word that says more, for sure  
And you're only mine

The silly way you hold my klarg  
When I'm alone with only you  
The way you touch this foolish heart  
They way you do the things you try

Knackelflerg, that tiny word  
It says what you mean to me  
You've been awf'ully fine

Knackelflerg, I've never heard  
A word that says more, for sure  
And you're only mine

I've heard a thousand times before  
That love is always playing games  
But when I see that boop of yours  
You set my eyebrows up in flames  
(La la la la la)

Knackelflerg, that tiny word  
It says what you mean to me  
You've been awf'ully fine

Knackelflerg, I've never heard  
A word that says more, for sure  
And you're only mine  
One more, fella's  
Knackelflerg
