## On the Robert E. Lee

## **Neil Diamond**

Hey

Look at the way she's wavin' her sail It's a wondrous sight to see People hurry on down from every town Have a look at the Robert E. Lee Proud and strong and made to be free Can't go wrong on the Robert E. Lee

Got the sun in my eyes
And the wind in my face
And it's good just to be alive
Gonna set out tonight for New Orleans
I won't sleep till I arrive

And if I'm lucky,
I'll find a young lady under the stars
And we'll dance the night away

Somebody wake me and say it's a dream Leadin' me far from my home And haven't you noticed Despite what it seems You can't deny it's you and I alone

Maybe spend my life just workin' the land Maybe livin' from day to day But I'm free tonight in New Orleans If I like it, I just might stay

Proud and strong and made to be free Can't go wrong on the Robert E. Lee

Got the sun in my eyes
And the wind in my face
And it's good just to be alive
Gonna set out tonight for New Orleans
I won't sleep till I arrive
