

# Slow It Down

Neil Diamond

Pick it up  
Hurry up son  
We gotta run if you wanna get down  
Clean speed  
Where does it need you  
If you wanna succeed  
I'm thinking you need to  
But are y really sure

It's a lot to endure  
But i got me a cure  
Slow it down!  
Slow it down you  
Slow it down  
Take your time and you'll find your time has a meaning  
Easy now  
Catch those sounds of your heartbeat before it's leaving  
You say you want satisfaction  
Just steaming away from the action  
Get some traction  
Between you and the scenery

Say hello way  
Not to fast  
It don't last  
Just follow my reflection

Day by day  
See that view  
It's for you  
Just pay some affection

Forget about competition  
Your doover and intuition  
Stop your wishing  
Won't get there by dreaming

Slow it down!  
Slow it down you  
Take your time  
Even last and reclaim  
Desine and desting

Doing fine  
Make it flow  
Let it go  
You'll see it walk the alley  
You're looking for bitter and greater  
And counting on sooner and later  
That's the way you won't be free  
Slow it down!  
Slow it down  
Slow it down  
Slow it down you  
Slow it down  
Slow it down
