

# Star Flight

Neil Diamond

I'm reaching out  
Trying to find you  
Out in the night I'm flying blind  
But I see the light  
And you are the light

I'm holding on I need to touch you  
You know it seems  
No matter how much chase that dream  
Well it's only a dream

I love the way that you look  
When you say that "it's Alright"  
I love the way I feel when I know that  
It's Alright  
Alright

Hang your star outside my doorway  
Show me the light  
And we'll go for the glory  
You and me are one tonight  
And anything that's done tonight  
Is alright  
Well its alright

Take a star flight ride with me  
It's a star flight ride

I'm hanging on  
Trying' to fight it  
Keep control  
So excited  
Let's taste the night  
Let's not waste the night  
I'm overdue  
Tired of waiting  
Chasing dreams  
Hoping fate will come through for me  
Send you for me

And I love the way that you look  
When you say that "it's Alright"  
I love the way I feel when I know that  
It's Alright  
Alright  
Hang your star outside my doorway  
Show me the light  
And we'll go for the glory  
You and me are one tonight  
And anything that's done tonight  
Its alright  
Its alright

Take a star flight ride with me  
Take a star flight ride and see

Hang your star outside my doorway

Show me the light  
And we'll go for the glory  
You and me are one tonight  
And anything that's done tonight  
Its alright

Star flight  
Well it's a star flight  
Take a star flight  
Hey it's alright with me
