Turn Down the Lights

Neil Diamond

I've been up, I've been down I've been so turned around That I've seen my fate In the eyes of others

I've been high, I've been low But there's one thing I know There's a lot to give When we give to each other

So I bring you my song Hoping you'll sing along

Turn down the lights Turn up the music Let's just be together tonight And turn down the lights

First we're here, then we're gone But the music plays on From the heart of one To the heart of another

It's goodnight, not goodbye We're just done for awhile We'll be back again With some new things discovered And we'll bring you our song Hoping you'll sing along

Turn down the lights Turn up the music Let's just be together tonight Come turn down the lights

So I bring you my song Hoping you'll sing along

Turn down the lights Turn up the music Let's just be together tonight

Turn up the love Bring out the memories You and I could share them all night So turn down the lights Turn down the lights Turn down the lights Turn down the lights
