

What Will I Do?

Neil Diamond

Dum dum dooby dooby
Dum dum dooby dooby
Dum dum dooby doo wop
Dum dum dooby dooby
Dum dum dooby dooby
Dum dum dooby doo wop

If you decide to say goodbye
You're gonna make my poor heart cry
Oh, what, what what can it be
But time will tell if you'll be true
Or if you gonna leave me blue
So I'll just wait-ait and see

If you never gonna kiss me again
And you never hug me again
Oh, oh
What will I do

Oh my dear, I really try
When you're out with another guy
But I can't help feeling sad
This hurt I have within my heart
Is there because you wanna part
Why must you treat me bad

Why do you wanna leave
You make my poor heart grieve
Oh, oh
What will I do

And if you do remain
You'll set me heart a flame
Sure as the stars above
You are the one I love

Oh my dear I really try
When you're out with another guy
But I can't help feeling sad
This hurt I have within my heart
Is there because you wanna part
Why must you treat me bad

Why do you wanna leave
You make my poor heart grieve
Oh, oh
What will I do

Dum dum dooby dooby,
Dum dum dooby dooby,
Dum dum dooby doo wop
Dum dum dooby dooby,
Dum dum dooby dooby,
Dum dum dooby doo wop
Dum dum dooby dooby,
Dum dum dooby dooby,
Dum dum dooby doo wop

Dum dum dooby dooby,
Dum dum dooby dooby,
Dum dum dooby doo wop
