

# Wish Everything Was Alright

Neil Diamond

The more you explain,  
The less I feel assured  
The closer I come,  
The more you'd hide  
And here's what I think  
We'd better get in touch  
Wish I could tell you everything was alright  
Wish everything was alright

The bigger the thrill,  
The more we're gonna pay  
You figure the bill, it's gonna bite  
And the higher we get,  
The more we're hangin' on  
Wish I could tell you everything was alright  
Wish everything was alright

And I know, I know  
I know I love you  
We can make it what we want it to be  
You know, you know  
you know You love me  
So ask yourself where does it lead?

The more we expect  
The less we're gonna find  
Whatever we get is gonna go  
And here's what I think  
We better stay in touch  
Wish I could tell you everything was alright  
Wish everything was alright

Wish I could tell you everything was alright  
Yeah  
Alright  
Oh yeah  
Wish I could tell you everything alright  
Wish everything was alright

Wish I could tell you everything was alright  
Wish everything was alright  
I wish, I could tell you  
Say, everything was alright

Wish I could tell you, everything  
Everything, everything is alright  
Oh I wish I could, wish I could  
Wish I could tell you everything was alright

Yeah, I wish I could  
Say everything was alright  
Wish I could tell you everything was alright  
Wish everything was alright
