## **Into The Sunset**

Here lies the place Won't let me languish Hear's all my footsteps and waits Watch how she fades into the sunset A vision spectacular in grace Hunger for the well-travelled Stimulating discussion Lift me Faster into the weakness Off the wall into blackness Gifted Red eyes reflect Open the suitcase Spread all your clothes on the floor Much like it was Ten years ago Time on the clock Don't want to waste it Hunger for the well-travelled stimulating discussion with me Faster into weakness Off the wall into blackness Gifted Gifted Watch how she fades into the sunset Vision spectacular in grace Hunger for the well-travelled stimulating discussion with me Faster into weakness Off the wall into blackness Gifted And I'm away from home And its a way of life And I'm flying high And I'm a wheeling gull Here, now, I come to rest Under a lying rock Over marine parade Maybe this time Here, I'll stay
