

## Spirit Of The Stairs

Neil Finn

You see the truth  
And you cannot hide  
You're so in tune  
You feel it inside  
Justice revenge  
Tickle all over  
Lily and sword  
Damnation, reward  
The spirit of the stairs  
Everyone thinks but no one dares  
Wishes made a sad lament  
After he's gone  
Ridicule or envy  
Now you can't forget me  
I'm fixed in your mind  
Like a knot in the twine  
To the dark and pouring rain  
Into the trap she sets again  
Hear my wooden footsteps on her train  
Hear my wooden footsteps again  
Tough outer shell  
But so you can tell  
She's soft underneath  
Where you sink your teeth  
Look sad, too bad, you're tongue tied  
How many times a day you're too dumb or too shy  
Two, three, four, five, count the stairs  
Spirit hears what I should have said  
And she knows why  
After she's gone
