

# How Can I Change Your Mind

Neil Sedaka

How many times, how many ways  
Can I try and make you stay  
How long can I go on pretending?

You've been my soul, you've been my life  
I thought there'd be a happy ending  
A love like ours, we'll never find  
How can I change your mind?

I've been looking all my life  
For someone just like you  
Think of all the times we've shared together

Why should it turn out this way?  
I thought this love would last forever  
You'll never find a love like mine  
How can I change your mind?

Tell me, how can I change your mind  
I'm sorry for the things I said  
Let's make believe it never happened  
Can't we make amends?

Forgive me I can't go on like this  
I just can't stop these tears from falling  
A heart like yours, I'll never find  
How can I change your mind?

I'll never be the same  
Without that tender smile  
I'll see your face in every window

And when the leaves begin to fall  
I'll hear your voice each time the wind blows  
Don't let our love just slip away  
I want you back, to stay

Tell me, how can I change your mind  
I'm sorry for the things I said  
Let's make believe it never happened  
Can't we make amends, make amends?

Forgive me I can't go on like this  
I just can't stop these tears from falling  
A heart like yours, I'll never find  
How can I change your mind?

A heart like yours, I'll never find  
How can I change your mind?
