

# Let's Go Steady Again

Neil Sedaka

Down, down, down, rudup do, let's go steady again  
Down, down, down, rudup do, let's go steady again

Let's go steady again like we did before  
Let's go steady again and be lovers once more  
Wear my ring around your neck like you used to do  
Don't you know it's wrong to break up  
Come on baby let's kiss and make up

Let's go steady again like in the past  
Let's show all of our friends that our love can last  
I don't care who was wrong, come back here where you belong  
Come on baby let's go steady again

Monday, we said goodbye  
Tuesday, all I did was cry  
Wednesday, I almost lost my mind  
Thursday, I was feelin' blue  
Friday, was the same way too  
Never had a day sad as Saturday  
Even Sunday was no fun day

Let's go steady again like we used to do  
Say you're ready and then we can start a new  
Seven days we didn't speak  
It's been a long and a lonely week  
Come on baby let's go steady again

Down, down, down, rudup do, let's go steady again  
Down, down, down, rudup do, let's go steady again

Down, down, down, rudup do, let's go steady again  
Down, down, down, rudup do, let's go steady again
