

Look Inside Your Heart

Neil Sedaka

If you need my love and you don't know what
To do
'Cos you've heard that I've been running around
If you're wandering if those stories are really true
And you're wandering just where I can be found

Just look inside your heart because there is where I will be
I'm waiting there for you no matter what you do,
Why can't you find me
Just look inside your heart my darling and then you will see
You are the only one
My rovin days are done
That's all behind me
Remember

When the parties of one more lonely night again
And you want to cry because you're love
When you want my heart to make it all right again
All you have to do is working your all

Your all

Just look inside your heart because there is where I will be
I wearing helped you, no mere what to do
Why can't you find me
Just look inside your heart my darling and then you will see
You are the only one
My love in daisy dark
That's all the high me
Remember

When the parties of one more lonely night again
And you want to cry because you're love
When you want my heart to make it all right again
All you have to do is working your all
Your all

Oh, look inside your heart
Uh-uh-uh-uh-uh-uh-uh-uh
Just look inside your heart

Uh-uh-uh-uh-uh-uh-uh-uh
Look inside your heart...
