

# Nothing Ever Changes My Love for You

Neil Sedaka

For you! For you! For you, hey!

The earth may change from Summer green to Winter white  
The brightest day can change into the darkest night.  
A grey cloud may change a sky of blue  
But nothing ever changes my love for you

A gentle breeze can blow into a hurricane  
A happy song can change into a sad refrain  
The oak leaf will fall when summers through  
But nothing ever changes my love for you

Time will alter Gibraltar the seas may run dry  
But you'll see that we'll be the same you and I  
A million things are bound to change as time goes on  
A million springs will come and go and when they're gone  
My darling the thrill will still be new  
Cause nothing ever changes my love for you.

....nothing ever changes my love for you  
Time will alter Gibraltar the seas may run dry  
But you'll see that we'll be the same you and I  
A million things are bound to change as time goes on  
A million springs will come and go and when they're gone  
My darling the thrill will still be new  
Cause nothing ever changes my love for you.  
For you! For you, hey!
