

# Sunny

Neil Sedaka

Sunny, stay by me  
Sunny, stay by me

Rain used to fill my eyes 'til I met you, Sunny  
You cleared my cloudy skies, pretty little Sunny  
You made the rain disappear  
It's just like magic when I hold you near

Oh Sunny, stay by me

I never wore a smile 'til the day I found you  
Now all I do is smile whenever I'm around you  
It's such a wonderful world  
Say that you'll always be my sunshine girl

Sunny, stay by me

My life was sad and lonely  
I never saw the sun  
But the very moment that I held you tight  
I walked out of the darkness and into the light

I love no one but you Sunny, please believe me  
Don't ever say we're through, Sunny never leave me  
Promise you won't go away  
Love me for ever as you do today

Oh Sunny, stay by me  
Sunny, stay by me  
Sunny, stay by me  
Sunny, stay by me
