

The Music of My Life

Neil Sedaka

You came to me just like a song
You changed the rhythm of my heart
You are the symphony that plays
You are the music of my life

A haunting theme that never ends
You're spinning round inside my brain
You're like a magical refrain
You are the music of my life

I never want your song to end
I need your touch to comfort me
Just like a thousand violins
You are the song my melody

I want your tune to linger on
A never-ending serenade
A chandler rhapsody that plays
You are the music of my life

I'll never love this way again
Don't ever change the song you sing
And when you speak the church bells chime
A love like yours I'll never find

The song will take us high
To another place
I know our special love
Can still survive through time and space

And if the song should ever end
My heart will never be the same
The song will always speak your name
You are the music of my life
The song will always speak your name
You are the music of my life
