

Coastline

Neil Young

Down on the coastline, Highway One
People headin' out for the sun
That's where I found you, long time ago.

You're my angel, you're my queen
You're my best friends in between
We don't back down from no trouble
We do get up in the mornin'.

Oooweee, baby, what a night
That old moon sure is shinin' bright
We'll be dancin' 'til the mornin' comes.

High on the mountain top above the clouds
No wonder we get a little loud
We don't back down from no trouble
We do get up in the mornin'.
