

Glimmer

Neil Young

When I'm riding down the road in my car
Travelling without you
I can still see you sitting there
Right by my side

With the headlights of the oncoming cars
Flashing in the windshield
There's a glimmer of everything that I once
Saw in you

Tough love
can leave you almost alone
But new love
Brings back everything to you
All the feelings in your heart
Come re-awaken

Like a forest without leaves on it's trees
Standing in the desert
Like the light that still leaks through
When you close the door

Like the changes in our life that hit so hard
That day I couldn't find you
There's a glimmer of everything good
That once came before

Tough love
can leave you almost alone
But new love
Brings back everything to you
All the feelings in your heart
Come re-awaken

There's a glimmer of everything good
That once came before
There's a glimmer of everything that I
First saw in you
