

I Want to Drive My Car

Neil Young

I wanna drive my car, I wanna drive my car
Further and further on down the road
I wanna drive my car

I need a place to go, I need a place to go
Further and further on down the road
I need a place to go

I gotta find my way, I gotta find my way
Further and further on down the road
I gotta find my way

I wanna drive my car, I wanna drive my car
Further and further on down the road
I wanna drive my car

I gotta find some fuel, I gotta find some fuel
Further and further on down the road
I gotta find some fuel
