

# Off the Road

Neil Young

When the day is done  
And the sun is sinking low  
When you see the light  
When you been most everywhere

You go  
You go

When the traffic's slow  
Break lines lined up for miles and miles  
And you know the end is not in sight  
You can never take your rides

Off the road  
Off the road

When you're all alone  
And you've been driving through the night  
And you know the end is not in sight  
You can never take your rides

Off the road  
Off the road
