

Psychedelic Pill

Neil Young

Party girl's got her shiny dress on
Look at those party moves
She's lookin' for a good time

She loves to dance and she loves the action
Wherever the party goes
She's lookin' for a good time

You're never gonna see a tear in her eye
Never see her break a frown
She's lookin' for a good time

The way she dances makes my world stand still
And she's spinning in the sky
Every move is like a psychedelic pill
From a doctor I can't buy.
