[Chorus] There's a long highway in your mind The spirit road that you must find To get you home to peace again Where you belong my love lost friend When you're alone You cheat yourself You paint yourself in a dark, dark place You get your shoes And get your hat Get out here while you still can There's nothin' right that you can say You keep on talkin' anyway and everyone seems to turn on you There's nothing right that you can ever do Spirit road Spirit road Spirit road Spirit road [Chorus] You stop to eat You start to drink But you don't stop and you don't think You lost your keys You're on your knees You're on your back and lookin' up in the trees And the night swirls for a little girl A speck of dust in the giant world There's a spirit road that you must find A long highway in your mind Spirit road Spirit road Spirit road Spirit road [Chorus] Don't feed that snake That turns on you You starve it out, that's what you do And it makes you lie It makes you cheat It steals your shoes and cuts your feet The snake keeps feeding through the night You lose your soul without a fight There's nothin' right that you can say You keep on talkin' anyway

There's a long highway in your mind

The spirit road that you must find Peace again Peace again [Chorus] When you're alone You cheat yourself You paint yourself in a dark, dark place Get your hat Get your shoes Get out here while you still can still choose Spirit road Spirit road Spirit road Spirit road Spirit road Spirit road

Spirit road Spirit road
