Tumbleweed
Your inner beauty
Is a peace sign
To me

Life is full of little tricks and We can always pick up sticks and Build again That's what we do

Harmony
The way we hold on
When we tumble
Through the night

Life is full of strange delights and In the darkness we find lights To make our way Back home again

Tumbleweed
I'm baring my soul
To you

Tumbleweed
It's all that I've got
That's true

Bite me now with your confusion Your happiness and delight

It will only hurt a moment Then it's gone and you can't see There's nothing left To leave a mark

Animal
Care for your kind
In the way
You always do

When the flower moon is shining It's eclipse and your lips smiling Comfort me
And I comfort you

Tumbleweed
Your inner beauty
Is a peace sign
To me
