

## Blacklisted

### Neko Case

Fast train  
Where do your passengers wait  
What's at the heart of your engine's rage

To what smooth place at the end of the line  
With crackling fires and quiet plains  
Do the trees bend down  
Fold their limbs round you  
Welcome home faithful one  
We forgive you

Slow down fast train  
Slow down fast train  
Take me with you
