

## Knock Loud

### Neko Case

Knock loud, I'm home  
Just sleeping to pass the time  
Wondering if you'll come by to visit me

Ten years have passed  
Since you walked out of my life  
But late last night in the pharmacy  
You were in the line in front of me  
So I ran away to hide

Knock loud I'm home  
I wrote in black felt pen  
Took that sign and taped it to the door

If you come in  
To see how I have been  
Make sure the door is closed behind you

Stand above me  
While I poised do plunge  
Through my heart attack  
Kills the worst of me  
Said I was sorry  
Drink to forgive  
I wake up alone  
Knock loud I'm home
