Look for Me (I'll Be Around)

Neko Case

When you tire of all the bright lights Haste that's killing and you're willing to stay home nights When your feet are back on the solid ground Look for me, I'll be around

When the new crowd starts to bore you Just remember there is someone to adore you When you're weary of nights out on the town Look for me, I'll be around

May not seem exciting the way those others do I'm emotion, my devotion You will need some day as I need you

When the kicks go that it brings you You will hanker for an anchor just to cling to When you've lived it up till it's got you down Look for me, look for me Look for me, I'll be around
