Chasing Ghosts

Nekromantix

If you don't take the chance, you'll regret when you're old
Like a Gothic romance, a travel through ups and downs
Hot and cold

There's only one way to find out if you got the guts for game

You're chasing ghosts now, I wonder just how
You don't get lost in the shadow maze
Your mind is so scarred, a mental graveyard
Floating in a tranquilizing haze, you're chasing ghosts

What's real and what's fake? You gotta go all the way
Make no mistake, this cocoon of youth
Will turn dark and grey

There's only one way to find out if you got the guts for game

There's a price to pay, so you better think twice
It ain't just hairspray, it takes a hell of a lot more
A lifelong sacrifice

There's only one way to find out if you got the guts for game

You're chasing ghosts now, I wonder just how
You don't get lost in the shadow maze
Your mind is so scarred, a mental graveyard
Floating in a tranquilizing haze, you're chasing ghosts
