

So In Love

Nela Pocisková

La la la la la la....

Forbidden love I don't care,
I don't care what anybody
thinks as long as you
are here with me,
here with me.

Where do we go from
here, I don't know,
you're the only one I want
the only one, we're so
meant to be.

I'm ready to jump
I'm never going under
I need you I can't wait any longer ooh oh
I'm so oh in love...
Incapable of failing,
I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in love.

la la la la la love

Destiny has brought us here
oh I can't believe
how much I feel
seems like a dream.

It must be fate,
something bigger than us that
brought me here, it's obvious
we're so
meant to be.

I'm ready to jump
I'm never going under
I need you I can't wait any longer ooh oh
I'm so oh in love...
Incapable of failing,
I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in love.

We've changed the course of time
oh, everything's so bright it's perfect
kiss me.
Everything for love
we do it all because
we're meant to be.

la la la la la love

I'm ready to jump

I'm never going under
I need you I can't wait any longer ooh oh
I'm so oh in love...
Incapable of failing,
I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in love.

We're meant to be
We're meant to be together
la la la la la love

I'm so oh in love.
