

# Dig It

Nellie McKay

Oh I can't dance!  
Yes you can! Stop that  
Oh I really can't  
Oh yes you can come on right left, right left  
Just give it a try  
Really you can teach me  
Oh yeah  
You got the legs for it  
Cause it seems to me  
Oh it seems to you  
I said it seems to me  
You said it seems to you  
A such embarrassing situation calls for concentration  
Do you dig me jack  
We dig you jack  
Can you think of a plan?  
We solid can  
Can you sing and dance?  
I'll take a chance  
Are your boots on right?  
I got 'em laced up tight  
Is Miss Miller a killer?  
From a Spanish villa  
Is her dancing mellow?  
Why, mellow as a cello  
Then it seems to me  
Obviously  
You wanna go right into your Terpsichore

I never could do the conga  
Could never get through the conga  
But if you say do the conga  
I ain't hep to that step  
But I'll dig it

I never could see mazurkas  
They're poison to me, mazurkas  
But if it's to be mazurkas  
I ain't hep to that step  
But I'll dig it

When they invented the Charleston  
I was a total flop  
Right  
But say if you want to Charleston  
I'll never stop  
I'll dance till I drop

I never could dig the polka  
The corniest jig, the polka  
But if you say dig the polka  
I ain't hep to that step  
But I'll dig it

Alright  
Oh there you go, there you go down  
You can dance sugar

That's not so hard  
What was that dance called

I never could do the conga  
Could never get through the conga  
But if you say do the conga  
I ain't hep to that step  
But I'll dig it

I never could see mazurkas  
They're poison to me, mazurkas  
But if it's to be mazurkas  
I ain't hep to that step  
But I'll dig it

When they invented the Charleston  
I was a total flop  
But say if you want to Charleston  
She'll never stop  
She'll dance till I drop

I never could dig the polka  
The corniest jig, the polka  
But if you say dig the polka  
I ain't hep to that step  
She ain't hep to that step  
I ain't hep to that step  
She ain't hep to that step  
She ain't hep to that step...
