G.E.S.

Nellie McKay

There you are There you're good and gleaming There you are There you're bold and beaming There you sit Every bit built to last There you were

There you traveled slowly There you were You were life unfolding Now you've quit Now they've broken the mass

Doo doo doo... The town's for sale Doo doo doo... It never fails

And I can make it happen And I can make it fun And I can watch it flatten out And I can make it run
