

# High Life

Nelly Furtado

They say I was always destined for fortune and fame  
Now that I've gotten what I wanted everything's changed  
And now I'm living the  
High life, high life  
I never looked back once I left my hometown  
High life, high life  
I left behind everybody I know

And now I'm singing like  
La la la la la la la la la la la la la la la  
La la la la la la la la la la  
And everybody sings along like

La la la la la la la la la la la la la la la  
La la la la la la la la la la  
Be careful when you're wishing for the high life

They say you have to come clean with your past to move on  
All of my dreams have come true but something still feels wrong  
But I'm still living the  
High life, high life  
I never looked back once I left my hometown  
High life, high life  
Said goodbye to everybody I know

And now I'm singing like  
La la la la la la la la la la la la la la la  
La la la la la la la la la la  
And everybody sings along like

La la la la la la la la la la la la la la la  
La la la la la la la la la la  
Be careful when you're wishing for the high life

Everybody's dreaming of the high life  
It may look good from the outside  
But all I really wanted was a good life  
With a memory reel of all the highlights  
All I want is to sleep good at night  
Look myself in the mirror knowing that I live right  
So when I'm six feet in the ground  
I'll be singing like

A million dollars in palm  
Not a worry in the world, that's everything I want  
I'm wishing I was there I feel like it's where I belong  
I wanna be able to go pay all the bills for my mom  
And make her smile  
Pick up my family and take em out  
On me  
And my over capacitated bank account  
Money is all I think about  
Of my life it's a highlight  
Tired of being low I'm ready for the high life  
Look at me now  
Look at how I get down  
Stubs and Wooten on my feet

I'm the flyest youngin in town  
But I'm loosin it  
My vision has just become an illusion  
And Now my highlife is low again  
Struggling to hold it in I was on a mission  
And messed everything up making all the wrong decisions  
I know it's not the end Well then again it might be  
And it's sucks god forbid you ever end up like me

And now I'm singing like  
La la la la la la la la la la la la la la la  
La la la la la la la la la  
And everybody sings along like

La la la la la la la la la la la la la la la  
La la la la la la la la la  
Be careful when you're wishing for the high life  
Be careful when you're wishing for the high life  
Be careful when you're wishing for the high life  
Be careful when you're wishing for the high life
