

# Miracles

Nelly Furtado

Turn a on my face to grow  
Make the skin on the back of my neck turn cold  
Need to feel, my bare feet on your road  
I will never again walk alone

If you question my faith, I'll still believe  
Putting earth in my heart out, put in bleed  
This is brand new air that I'm breathing  
I'm breathing

Show me all of your miracles,  
Pulling me inside your water  
Oh, never felt something real before  
I believe you know your miracles

Take me up, to the place that you live  
Out there, you got some much more to give  
I love that, you're not meant to wash it  
But I'm loosing my sense of control

If you question my faith, I'll still believe  
I need this air so desperately  
So I can breathe

Show me all of your miracles,  
Pulling me inside your water  
Oh, never felt something real before  
I believe you know your miracles

You're in my heart, in my mind,  
In my body and soul  
I'm feeling your power and I'm loosing all control  
And I'm weightless, this space is divine  
Divine, divine

Show me all of your miracles,  
Pulling me inside your water  
Oh, never felt something real before  
I believe you know your miracles

I wanna feel all your miracles  
In my mind, in my body and soul  
I wanna feel all your miracles, oh, oh, oh, whoa  
Miracles!
