

# Night Is Young

Nelly Furtado

Visions of you  
Visions of me  
Everything we wanted  
I wanna be frozen in time  
Forever in this moment

How you wanna live?  
What you wanna feel?  
Don't you know you make me feel  
So alive

What you wanna do  
What you wanna feel  
I know you wanna live your life right

The night is young, and so are we  
We can do anything  
I wanna baby

The night is young, and so are we  
We can be anyone  
We wanna be babe

'Cause we are  
Free free free free, free free  
And life is  
Free free free free, free free

Don't worry baby, I'll be here  
To make sure you're feeling fine  
You can let go of all your fears  
'Cause you're not going home tonight

How you wanna live  
What you wanna fee  
Don't you know u make me feel  
So alive

What you wanna do  
What you wanna feel  
I know you wanna live your life right

The night is young, and so are we  
We can do anything  
We wanna baby

The night is young, and so are we  
We can be anyone  
We wanna be babe

'Cause we are  
Free free free free, free free  
And life is  
Free free free free, free free

Baby it's all good  
(Baby it's all good)

When I look at you  
(When I look at you)  
And I see that you  
(And I see that you)  
Made it through everything  
(Made it through everything)  
After all of the ups and downs  
(All of the ups and down)  
We figured it out  
(We figured it out)  
And I will know  
How to ride it out

The night is young, and so are we  
We can do anything  
We wanna baby

The night is young, and so are we  
We can be anyone  
We wanna be

'Cause we are  
Free free free free, free free  
And life is  
Free free free free, free free  
Free free free free, free free  
Free free free free, free free  
Free free free free, free free
