

# Palaces

Nelly Furtado

It could take a little  
It could take a little time  
But I think we'll get it right  
This life is only  
Only real life when it hurts  
But I think that we'll survive  
Survive

We built palaces  
Imagining everything we want but can't have  
Real life ain't so fantastic  
But you and me, we could've had  
Everything in our wildest dreams  
Palaces are deceiving  
We could've had it all without the price that we paid  
We could've had it all without the chains  
That palaces make

Break free from the chains  
Break free from the chains  
Into love  
Into love  
Let's break free from the chains  
Break free from the chains  
Into love

It could take a little  
It could take a little time  
But this life could be so blessed  
If we keep it simple  
Saying no to the madness  
And I'll take care of the rest, the rest

We built palaces  
Imagining everything we want but can't have  
Real life ain't so fantastic  
But you and me, we could've had  
Everything in our wildest dreams  
Palaces are deceiving

Break free from the chains  
Break free from the chains  
Into love  
Into love  
Let's break free from the chains  
Break free from the chains  
Into love  
Into love

We built palaces but palaces fade  
But we still say  
We built palaces  
Imagining everything we want but can't have  
Real life ain't so bad

Break free from the chains  
Break free from the chains

Into love  
Into love  
Let's break free from the chains  
Break free from the chains  
Into love  
Into love, let's  
Break free from the chains  
Break free from the chains  
Into love  
Into love, let's  
Break free from the chains  
Break free from the chains  
Into love  
Into love
