

Put on your best clothes  
We've been waiting too long for this moment  
I'll put on my best smile  
I'm shining inside, and I'm proud of our love, but  
Every time I turn around  
You say that you're not checking for love in that way  
But every time I come around you seem  
So ready for this

Show time, our love's coming out  
Lights, camera, action; show what we're about 'cause it's  
Show time; our love's breaking out  
Let's show the world you're my boy  
I'm your girl 'cause it's  
Show time; our love's coming out  
Lights, camera, action; let it all hang out  
'Cause it's show time  
Yeah, our time is now  
Let's show the world you're my boy  
I'm your girl

Let's break a leg out there  
This could be the start of the rest of our lives  
I've got so much to share  
And I'm ready to put it all out there for you  
But every time I turn around you seem  
So afraid of what people might say  
But can't you see it's a game they play  
Trying to cast a shadow on our love

I wanna love you when I want  
Want to love you where I want to  
Wanna touch you when I wanna  
Wanna kiss you when I wanna, baby

Because it's not fair to love you in chains  
It's not fair to love you in chains
