## Showtime

**Nelly Furtado** 

Put on your best clothes We've been waiting too long for this moment I'll put on my best smile I'm shining inside, and I'm proud of our love, but Every time I turn around You say that you're not checking for love in that way But every time I come around you seem So ready for this

Show time, our love's coming out Lights, camera, action; show what we're about 'cause it's Show time; our love's breaking out Let's show the world you're my boy I'm your girl 'cause it's Show time; our love's coming out Lights, camera, action; let it all hang out 'Cause it's show time Yeah, our time is now Let's show the world you're my boy I'm your girl

Let's break a leg out there This could be the start of the rest of our lives I've got so much to share And I'm ready to put it all out there for you But every time I turn around you seem So afraid of what people might say But can't you see it's a game they play Trying to cast a shadow on our love

I wanna love you when I want Want to love you where I want to Wanna touch you when I wanna Wanna kiss you when I wanna, baby

Because it's not fair to love you in chains It's not fair to love you in chains
