

# The Most Beautiful Thing

Nelly Furtado

Everybody's coming out  
Glittering and screaming so loud  
I just want to walk down your road  
I just want to dance slow

Of all I've known  
All I've seen  
You're the most beautiful thing

Everyone is looking for it  
Searching until they are hurting for it  
Stop looking in the mirror  
We've got just what we came with

Of all I've known  
All I've seen  
You're the most beautiful thing

And I want you to sing for us  
I want you to sing for us  
Need you to sing for us

Everything I know feels alright  
I won't search no more tonight

Of all I've known  
All I've seen  
All I dream  
You're the most beautiful thing
