

She Gets Down

Nelson

I am mommy's naughty boy
Her misbehavin' pride and joy
I'll sin, then she'll punish me for my wicked ways
I've disobeyed and now I've got to pay

(She gets down)

My girl gets me down on my knees
(Low down)
Won't stop 'til I beg and I plead
(She gets down)
I need to walk on the wilder side
So my girl gets down on me

Out of sight but not of mind, lurking in my darker side
Fantasies torture me, strange perversities
My love is like Pandora's box
And my mistress holds the key

(She gets down)

My girl tames the monster in me
(Low down)
She knows how to give what I need
(She gets down)
She controls my sexual greed
So I let my girl get down on me

I get my pleasure from the pain
But if nasty habit gossip spreads
What would the neighbors say?

(Hurts so good)

Are you ready for me senator?
Yes Mistress
(Like it should)
Have you been nice, or have you been naughty?
I've been a bad boy Mistress

(Hurts so good)

You know I'm going to have to punish you
Don't you?
Oh, do what you must

(She gets down)

My girl, she don't do it for free
(Low down)
I pray that she keeps it discreet
(She gets down)
'Cause no one knows the life that I lead at night
When my girl gets down on me
