

# Tell Me

Nelson

You kissed your loved one goodbye  
On a cold, foggy day  
I guess you didn't know  
That I'd go so far away

You knew there'd come a time  
When the road would call my name  
And we'd have to put a hold on  
All those dreams we made

So take my heart  
I've already taken yours  
This wound won't heal

I'm alone and cold inside  
Is there a moment we haven't shared  
Two hearts drawn as one  
Now I stare at an empty chair

You called and said last night  
I've been waiting for your kiss  
Still I lie here at night  
As I think of the things I miss

So take my heart  
I've already taken yours  
This wound won't heal

Tell me, do you miss me like I miss you girl?  
Hold me, in your heart I'll never be lost again  
Tell me, do you miss me like I miss you girl?  
Hold me, in your heart I'll never be lost again

Distance keeps burning inside of me  
I need you with me  
Oh girl, tell me

You kissed your loved one goodbye  
On a cold, foggy day  
I guess you didn't know  
That I'd go so far away

Tell me, do you miss me like I miss you girl?  
Hold me, in your heart I'll never be lost again  
Tell me, do you miss me like I miss you girl?  
Hold me, in your heart, in your heart why don't you tell me

Tell me, you know, I didn't wanna leave you girl  
Hold me, in your heart, I've already taken yours  
Tell me, won't you tell me, do you miss me  
Do you miss me like I miss you girl?  
Hold me I'll never, I'll never be lost again
