

# Broken

Nemesea

Every memory  
Every angry thought of you  
Makes me certain  
What you took away from me

Every moment  
Every happy thought you stole  
I've not forgotten  
What you did to me

Every harsh word  
Every cruel trick that you played  
Makes me wonder  
What I'll do to you

Cause by breaking me  
You have made a stronger person  
You will see!

Today is the day to take a hold  
This is the truth that I have found  
For those who tore my life apart  
Are gonna find what comes around

Every dark day  
Every painful second spent  
Made me discover  
What to do for me

Cause by breaking me  
You have made a stronger person  
You will see!

Today is the day to take a hold  
This is the truth that I have found  
For those who tore my life apart  
Are gonna find what comes around

Diamonds only shine when held in the light  
You could never treasure me  
Now I've made my choice

Every small step  
Every link I have to break  
Leads me further  
Away from you

Today is the day to take a hold  
This is the truth that I have found  
For those who tore my life apart  
Are gonna find what comes around
