

# Release Me

Nemesea

Tunnel vision, body's freezing  
Anxious moments, don't stop breathing  
Uninvited black intrusions  
Taking over all confusion  
Boiling panic growing stronger  
I am falling, common pitfalls  
Drifting off and I keep sinking  
Going crazy, who will save me?

Wake me up  
And let the light take over  
Let it stop  
I'm losing sense of time so  
Wake me up  
Please kill this everlasting  
Insane rock  
I am about to scream

Release me  
Relieve me  
Release me

Drawing lines but they keep moving  
Flashing image, growing darkness  
Eyes wide shut, the urge to run  
When all is lost and all is gone

Wake me up  
And let the light take over  
Let it stop  
I'm losing sense of time so  
Wake me up  
Please kill this everlasting  
Insane rock  
I am about to scream

Release me  
Relieve me  
Release me
