

Stay With Me

Nemesea

Don't you understand?
Didn't you just listen to me?
I will never find
All that I came here for
It's time to understand
It's time to recognize the pitfall
Need to change my ways
Directions I'm going in

Breathe with me
Come fill me, hold me, take my hand and stay with me
Honestly
I cannot carry on if you won't stay with me, no

I sacrificed it all
Even all my great potential
Pushed through every door
I've lost all my will to try
Now I understand
I will never never make it
If I don't believe
This dream will come true for me

Breathe with me
Come fill me, hold me, take my hand and stay with me
Honestly
I cannot carry on if you won't stay with me, no

These boundaries we will overcome
All this time we fought so hard and now
We'll make it and I won't let go
So I just need you to

Breathe with me
Come fill me, hold me, take my hand and stay with me

Agony
Won't fill me, hold me, take my hand and stay with me
Honestly
I cannot carry on if you won't stay with me
